

**SPECIAL INTEREST GROUP ON PHYLLACHORALES
PROGRAM**

Organizer: José Carmine Dianese- Universidade de Brasília, Brasília, Brazil.

Friday July 20 from 7:30 PM to 9:00 PM

Presentations

1. Advances in systematic, taxonomy and host-relationships of Neotropical Phyllachorales (Sordariomycetes, Ascomycota)

Melissa Mardones^{1,2} & Meike Piepenbring¹- 20 min

¹*Department of Mycology, Faculty of Biosciences, Goethe University Frankfurt am Main, Biologikum, Max-von-Laue-Str. 13, 60439 Frankfurt am Main, Germany;* ²*School of Biology, University of Costa Rica, San Pedro, 11501 San Jose, Costa Rica.*

2. Status of *Phyllachora sensu stricto* and other *Phyllachora*-like species in Asia

R. Cheewangkoon, N. Tamakaew, S.S.N. Maharachchikumbura, J.K. Liu, M.C. Dayarathne & K.D. Hyde- 20 min

PO Box 58, Badoo Post Office, Muang, Chiang Rai 57100, Thailand

3. Phylogeny of *Apiosphaeria* (Phyllachoraceae).

Débora C. Guterres, Samuel G. Elias & José C. Dianese- 20 min.

Dep. of Plant Pathology & Dep. of Cell Biology-Microbial Biology Program, Univ. of Brasília, 70910-900 Brasília, DF, Brazil

4. An overview of Phyllachorales from the Brazilian Cerrado

Débora C. Guterres, Samuel G. Elias & José C. Dianese- 15 min.

Dep. of Plant Pathology & Dep. of Cell Biology-Microbial Biology Program, Univ. of Brasília, 70910-900 Brasília, DF, Brazil

5. Discussion- 15 min.
